

# Survey on the Organization of Studies and Examinations at KIT

## Summer Semester 2024

Anne Pfeifer, Nadja Legrum-Khaled

# Introduction and methodology

## Aim of the Survey

- The survey on study and examination regulations covers important framework conditions for studying at KIT, for example:
  - Information, support and advice regarding studies
  - Learning success and competence orientation
  - Organization of studies/examinations and content of studies
  - Internationalization
  - Graduation

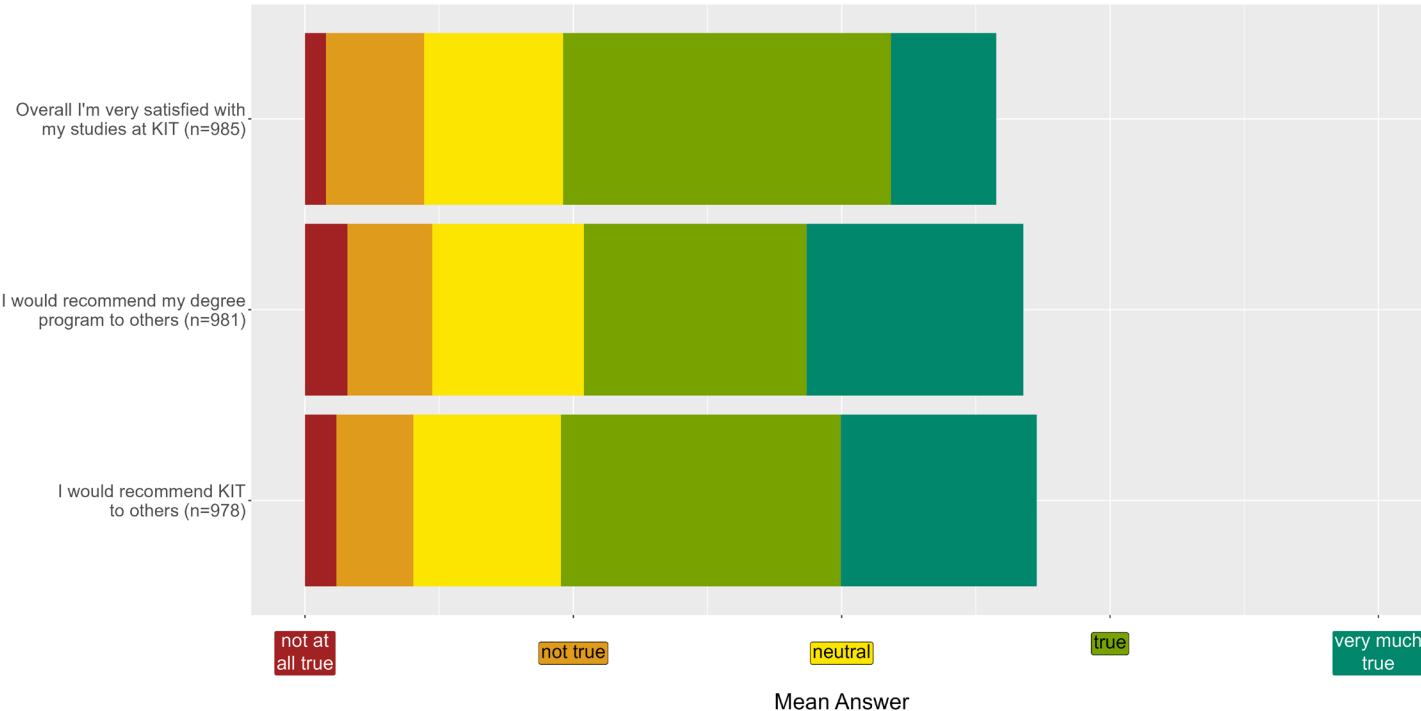

## Method

- Standardized online survey (invitation sent via email)
- Survey Period: June 25th, 2024 – August 30th, 2024
  
- Invitations were sent to all KIT students
- Response Rate: 5,11% (985 participants out of 19275 students reached by email)

# Student satisfaction and advisory services

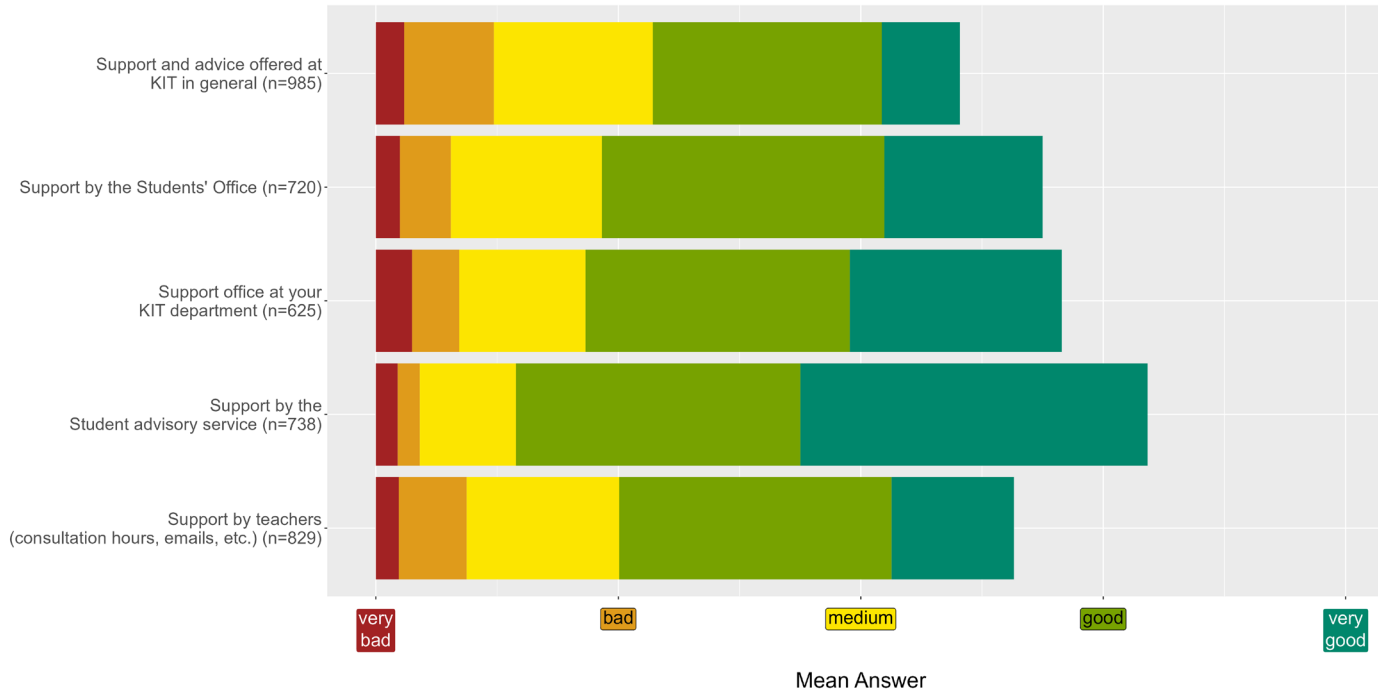

# Satisfaction with studies at KIT so far

The length of the bar indicates the mean value.

The different colors of the bars – in relation to the area of the bars – indicate, which proportion of the answers fall into the answer categories (see color coding of the x-axis).

# Satisfaction with support and advice during studies

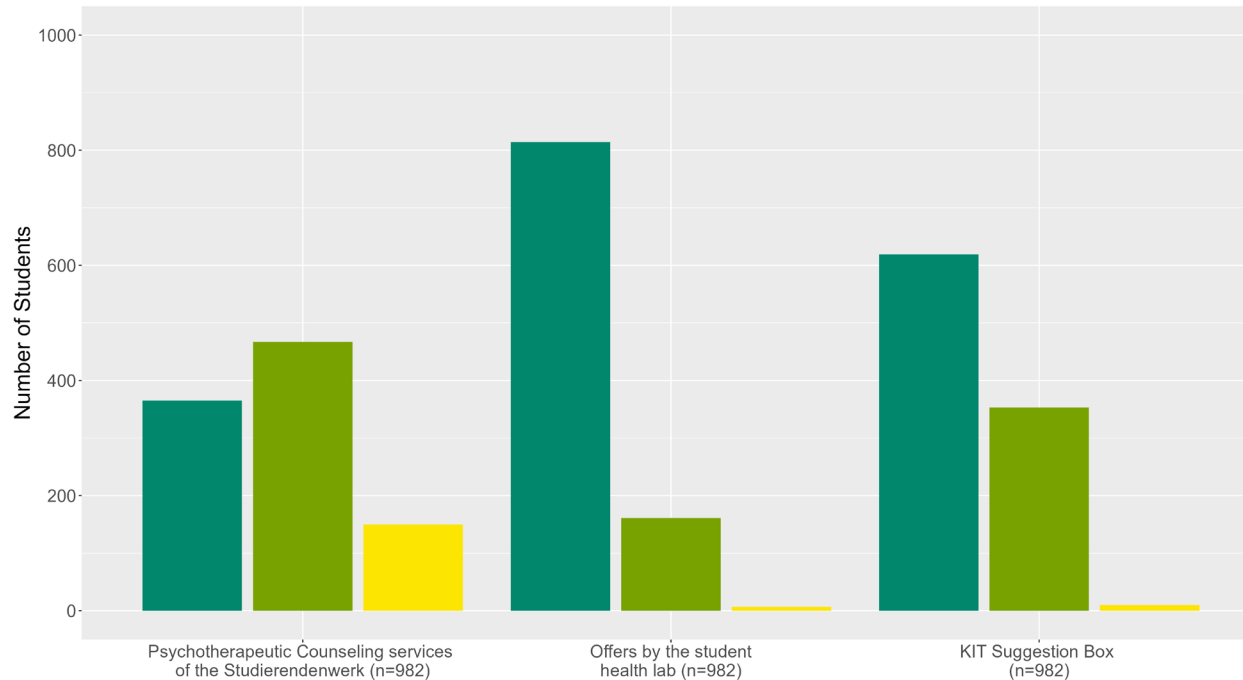

**How do you rate the support and advice given by the following institutions during your studies?**

\*These questions included the fallback option "I cannot judge". People who chose this option are not shown in the diagram.

The size of the subsample (n) is reduced accordingly.

The length of the bar indicates the mean value.
